- Karnataka Chapter**

**Research Society for the Study of Diabetes in India  
- Karnataka Chapter**

**Indian Association of Gastro Intestinal Endo Surgeons**

## Metabolic Surgery Consensus Summit....

Today in India, if a disaster management team were to estimate the damage caused by diabetes to the quality of our human resources, they would be looking at astronomical figures. At the same time, like a silver lining on a dark cloudy night; there are numerous new treatments & medications in the pipeline, with a face of hope & promise.

Speaking about a new, very promising field, bariatric surgery has shown resolution of diabetes in the vast majority of obese patients undergoing certain types of surgeries. Newer surgeries have been devised for bringing in a change in the body metabolism without the associated weight loss of bariatric surgery. Amongst them, Ileal transposition may prove to be the limelight stealer.

It gives us lot of pleasure to announce that **Dr. Aureo L. de Paula**, the pioneer of ileal transposition procedure has for the first time agreed to share the knowledge of his very promising innovation with us. We are going to be very first fortunate lot to get the precious first hand information about the procedure and its results.

This consensus meet on Metabolic surgery will also witness a host of Physicians, Endocrinologists, Diabetologists, Bariatric & Metabolic Surgeons to trigger a gigantic brain storming event. Its going to be one of the best intellectual feasts in a long time, seen to be a historical event.

We are very happy to extend you a warm welcome to the historical event, Metabolic Surgery consensus summit, which is scheduled to be held on **12th of February 2012** at Bengaluru. So, please look forward to witness the participation of major reputed organizations of clinicians & researchers involved in diabetes management.

The meet is being organized at **R.V. Teacher's College** near Lalbagh, at Bengaluru.

Last but not the least, gastronomical feast will follow the giant intellectual feast to garnish the great event. We are sure you will seize the golden opportunity, as they are known not to knock the door twice!!!

**Dr. M. Ramesh**  
Organizing Chairman

**Dr. K.R. Narasimha Setty**  
Organizing Co - Chairman

## Faculty....

**Dr. Aureo L. de Paula**

*Dr. Aureo L. de Paula, hailing from Goiania, Brazil, is well known in laparoscopic surgical fraternity for his surgical skills, developing advanced techniques and evolving new surgical procedures. He is known in international circles as an authority in transhiatal oesophagectomy for Chaga's disease. But the news that has captured the imagination of the entire medical fraternity is his laparoscopic surgical intervention for resolution of Type 2 Diabetes, the Ileal transposition surgery. Dr. Aureo has been performing this procedure silently for over 8 years on more than 800 patients, with >90% remission rate of Diabetes.*

*It's a wonderful opportunity for all of us and this interaction could open many new paths for us in our quest to treat our patients and give them a quality life. The knowledge is fresh and promising. He could prove to be the Sushruta of our times!!!*

### International Faculty

- **Dr. Aureo L. de Paula**, Brazil
- **Dr. Paresh Shah**, USA
- **Dr. Sunil Sharma**, USA
- **Dr. Alper Celik**, Turkey

### National Faculty

**Leading Endocrinologists,  
Diabetologists, Bariatric &  
Metabolic Surgeons**

## Program Highlights ....

- ❖ The first of its kind meet on Bariatric Surgery for Management of Diabetes
- ❖ A magnanimous effort in evolving evidence based therapy
- ❖ Involvement of major academic and research organisations of the country
- ❖ A never before talk By Dr. Aureo L. de Paula the pioneer behind transposition for Type II Diabetes
- ❖ A unique scientific feast by outstanding faculty each an authority in their field
- ❖ An opportunity to view videos of the best hands performing metabolic surgeries
- ❖ Definite take home message from every speaker
- ❖ Real-time impact creating interaction with beneficiaries of Bariatric and Metabolic Surgery
- ❖ A summit not to be missed to regret later

## Scientific Program

---

- Introduction
- The Diabetes Epidemiological pyramid - *How broad has the base spread?*
- Diabetes or Die A Bit??? *A peek into the complications of diabetes*
- Medical management of diabetes : *Latest and the Best*
- Metabolism and Bariatric Surgery – *Where does the balance tilt?*
- Ileal Transposition – *The Midas touch to diabetics*
- Articulate hands and Hawks Eye : *Surgical Procedure Videos*
- Cumulative pool experiences of various Bariatric Surgeons across the Nation
- Our esteemed feedback : *Experience of Treatment Beneficiaries*
- Fat to Fit – *Life after Bariatric Surgery*
- The Grand Battle : *Medical versus Surgical Management of Diabetes*
- The War Cry : *Debate between Physicians and Surgeons*
- The Grand Finale : Lets put our heads together – *Open House Discussion*
- Together We Stand : *The CONSENSUS*

## Registration

---

**Rs. 1000/-** (*Registrations are limited for 300 Delegates*)

- Note:**
- ◆ Please send Multicity Cheques / DDs only in favour of “**B.E.S.T Institute & Research Centre**”, payable at Bengaluru only.
  - ◆ Please send the filled Registration form to the Secretariat at the earliest as the registrations are purely on ‘**First Come First Serve**’ basis.
  - ◆ For any requirement of Accommodation near the Venue (*Single / Deluxe Rooms*) and on twin sharing basis (*subject to availability*). Contact the Secretariat for more information.
